Pricelist Bass Strings (01/2017- all prices in Euro incl. 19 % German VAT)

DACAPO BASSTRINGS are made due to my specifications in a small company in Great Britain and these strings are the best I have ever tried.

The playability is smooth with a lower string tension and they are almost as longlasting as coated strings.

All the sets listed below are in stock in Nickel Roundwound and some Stainless sets as well.

The length is optimized for a 34"scale, but also fits most of the the 35" basses.

Extra long scale 36"sets and Headless strings are also available.

The low B strings are taper-core wound, piano-type and full-wound B strings are also in stock.
